

Samyak Goel

SENIOR SECURITY ENGINEER

Delhi, India | samyakgoel5@gmail.com | +91 9557657134 | LinkedIn | Medium

Profile

Senior Security Engineer with hands-on experience across Network Security, Firewall Engineering, Endpoint Security, Detection Engineering, and Incident Response. Skilled in translating Technical Data into Actionable Business Context and solving complex security challenges across enterprise environments.

Skills

Detection Engineering & IR Skills

Threat Detection, Alert Triage, Behavioral Detection, Endpoint Telemetry Analysis, Incident Response, RCA, Policy Tuning, Security Monitoring, TAC Coordination

Core Security Tools

FortiGate, Trend Micro Vision One, Palo Alto Cortex XDR, Splunk, MITRE ATT&CK, Sysmon, KAPE, Volatility, Autopsy

Scripting & Querying

PowerShell, Python, Bash, Windows Batch, XQL

Security Concepts

Network Security, Firewall Security, Vulnerability Assessment & Penetration Testing (VAPT), OSINT, Malware Analysis, EDR/XDR, Windows Internals, Security Hardening, Threat Analysis

Professional Experience

Senior Security Engineer

07/2026 – Present

F1 Infotech Pvt. Ltd

Client-Side Responsibilities (Trend Micro Vision One EDR Deployment) | Client: Beltron

- Worked on **Trend Micro Vision One EDR deployment** across client endpoints, supporting implementation, configuration, and deployment activities.
- Performed endpoint onboarding, agent deployment, health validation, and troubleshooting during the deployment lifecycle.
- Supported **EDR policy configuration, endpoint security monitoring, and deployment issue resolution.**
- Investigated endpoint-related security and connectivity issues and coordinated resolution with relevant technical teams.

Network Security – FortiGate Firewall

- Perform **FortiGate firewall troubleshooting** involving connectivity, policies, traffic flow, and network security issues.
- Analyze firewall policies, and configurations to identify and resolve network-related issues.
- Support **FortiGate policy management, configuration changes, and firewall operations.**
- Perform and support **FortiGate firmware upgrades**, including pre-upgrade checks and post-upgrade validation.

Swan Solutions & Services Pvt. Ltd.

Client-Side Responsibilities (Primary Project – Cortex XDR Implementation) | Client: Multi Commodity Exchange of India (MCX)

- Serve as the Cortex XDR Lead at client site, overseeing endpoint security operations, detection workflows, and incident investigation across enterprise endpoints.
- Analyzed a real-world XDR bypass involving PowerShell abuse, AMSI bypass, and COM object injection; contributed to RCA and long-term detection logic enhancement.
- Coordinated directly with Palo Alto TAC & Engineering to troubleshoot complex behavioral anomalies, validate product functionality, and drive issue resolution.
- Authored 36+ XQL detection queries, improving detection coverage, automating reporting, validating suspicious activity, and enhancing InfoSec decision-making.
- Act as a trusted escalation point for the client's InfoSec Manager, AVP, SOC team, and Service Desk—recognized for clarity, reliability, and precision during high-pressure incidents.
- Supported policy tuning, behavior-based alert optimization, endpoint health validation, and stabilization activities during XDR rollout.

Company-Side Responsibilities (Internal SOC & Process Building)

- Handle SOC alert responses for Swan Solutions: review incoming alert emails, analyze indicators, validate risk level, and coordinate responses with internal teams.
- Draft and send incident advisory emails to relevant technical teams with recommended actions, mitigation steps, and timelines.
- Developing the company's SOC Incident Response (IR) process, including: Escalation mode, Notification procedures, Documentation templates.
- Leading the internal SOC project setup, covering log monitoring structure, alert routing, response workflows, and documentation.
- Ensuring alignment between company SOC operations and industry IR best practices to improve response maturity and standardization.

Certifications

Palo Alto Networks PCDR (Detection & Remediation Analyst) [🔗](#)

Palo Alto Networks Certified XSIAM Analyst [🔗](#)

ISC2 Certified in Cybersecurity (CC) [🔗](#)

Foundations of Operationalizing MITRE ATT&CK v13 [🔗](#)

SentinelOne Partner Cloud Professional [🔗](#)

Education

Bachelor of Technology (B.Tech.) – Computer Science Engineering (Cybersecurity)

08/2020 – 05/2024

Lovely Professional University, Punjab

Languages

Hindi, English
